

SERIAL NUMBER LISTING OF ROYAL CANADIAN AIR FORCE P-51D TYPES

by Robert T. O'Dell

The following serial number listing is presented in the belief that most recognition specialists and photo collectors try to follow a specific aircraft from the service of one nation to another. The following list consists of the R.C.A.F. serial number, former U.S.A.F. serial number and exact designation including block number.

The R.C.A.F. received a total of 130 P-51 types from the U.S.A.F., all were P-51D variants. The first 80 P-51D's were assigned R.C.A.F. serials 9221 through 9300 inclusive. The second 50 were assigned serials 9551 through 9600 inclusive. Throughout its service with the R.C.A.F. the P-51D was known as the "Mustang Tactical Fighter MK.4."

Much of the data contained in this listing was supplied by the Public Relations Department, Royal Canadian Air Force, Ottawa Canada.
