Request for Assistance

Can anyone identify this aircraft? We've received an inquiry for one of our members asking for assistance in identifying the aircraft pictured here.

Beyond the photo, nothing is known about the aircraft's make and model, possible location of the photo, etc.

If you think you have an answer to this puzzle. Please drop a note to this editor (email at: webmaster@aahs-online.org) or to my attention at the AAHS headquarters.

Help your Society From the convenience of your own home!

The Society has about 1 Million photographs that need cataloging.

Using [AAHSPlaneSpotter](#), you can identify and enter data about the aircraft in the image - Manufacturer, Model, registration id (if visible) and anything else in the image that is relevant. All you need is an internet connection and an internet browser. Work at your own pace, any time of the day or night.

Point your browser to:
