

ADDENDUM TO

BARNSTORMING...with champagne

By DOUGLAS H. ROBINSON

With his comprehensive history of the German DELAG airship operations, presented in "Barnstorming with Champagne" (JOURNAL, Summer 1962) Dr. Robinson submitted the following bibliography and chart of statistics. This information was misplaced and resulted in an error in pagination in the Summer JOURNAL (pages 156 & 157 omitted). It has been reset and is now printed as an addendum, with our apologies to Dr. Robinson.
